Student Index

This student-friendly index will help you find vocabulary, key ideas, and concepts. It is easily accessible and designed to be a reference for you whether you are looking for a definition, real-life application, or help with avoiding common errors.

	measures	systems of linear equations, 203
A	of a quadrilateral, 527	Circle(s)
. 1 11 .	of a triangle, 520–521	area of, 564–569
Addition	naming, 504	formula, 566
Property	of polygons, 118–125	center of, 550
of Equality, 4	defined, 112	circumference and, 548–555
of Inequality, 472	reading, 120	defined, 551
to solve inequalities, 470–475	real-life application, 121	formula, 551
Addition Property of Inequality, 472	similar, 126–131	research, 555
Adjacent angles	of rotation, 62	defined, 550
constructions, 502–507	sums	diameter of, 550
defined, 504 Algebra	for a quadrilateral, 527	pi, 548, 551
equations	for a triangle, 520–521	semicircle, 552
graphing linear, 142–147	supplementary	Circle graphs, 394
literal, 28	constructions, 508–513	Circumference
multi-step, 10–15	defined, 510	and circles, 548–555
rewriting, 26–31	of triangles, 110–115	defined, 551
simple, 2–9	exterior, 112	formula, 551
with variables on both sides,	interior, 112	research, 555
18–25	real-life application, 113	Common Error
formulas, <i>See</i> Formulas	similar, 128	inequalities, 481
functions	vertical	linear functions, 259
linear, 256–263	constructions, 502–507	Pythagorean Theorem, 320
nonlinear, 266–271	defined, 504	Quotient of Powers Property, 424
relations and, 242–247	Angle of rotation, defined, 62	scientific notation, 445
representing, 245–255	Area, See also Surface area	transformations
linear equations	of a circle, 564–569	rotations, 63
graphing, 142–147	formula, 566	similar figures, 72
lines of fit, 378–383	of a composite figure, 570–575	Comparison chart, 264
slope of a line, 148–157	of similar figures, 76–81	Complementary angles
slope-intercept form, 166–183	formula, 78	constructing, 508–513
standard form, 172–177	writing, 80	defined, 510
systems of, 202–229	B	Composite figure(s)
properties, <i>See</i> Properties		area of, 570–575
Angle(s)	Bar graphs, 394	defined, 558
adjacent	Base, defined, 412	perimeters of, 556–561
constructions, 502–507	Biased sample(s), defined, 674	Compound event(s), See also
defined, 504	Box-and-whisker plots, 394	Events, Probability
alternate exterior, 106		defined, 656
alternate interior, 106		writing, 657
classifying, 509–510		Concave polygon, defined, 119
triangles by, 516	Center, defined, 550	Cone(s)
complementary	Center of dilation, defined, 84	volume of, 340–345
constructions, 508–513	Center of rotation, defined, 62	formula, 342
defined, 510	Choose Tools, <i>Throughout</i> .	real-life application, 343
congruent	For example, see:	writing, 344
defined, 504	angles, 503	Congruent angles
reading, 516	circles and circumference, 553	defined, 504
corresponding, 104–105	graphing linear equations, 143	reading, 516
defined, 44	indirect measurement, 127	Congruent figures, 42–47
exterior	probability, 638, 658	corresponding angles, 44
defined, 105	scientific notation, 447	corresponding sides, 44
interior, defined, 105	slope, 154	defined, 44

identifying, 44	probability, 643	project, 393
naming parts, 44	proportional relationships, 163	scatter plot, 372–377, 394
reading, 44	samples, 676, 677	stem-and-leaf plot, 394
Congruent sides	scale drawing, 535	two-way table, 386–391
defined, 516	scale factor, 536	writing, 398
reading, 516	scientific notation, 441, 453	identifying relationships, 375
Connections to math strands,	similar triangles, 131	linear, 375
Throughout.	slant height, 598	negative, 375
For example, see:	slope, 153, 154, 155	nonlinear, 375
Algebra, 305	slope-intercept form, 170	positive, 375
Geometry, 24, 25, 75, 81, 109,	solids, 339	joint frequencies, 388
125, 131, 147, 156, 157, 293,	square roots, 292	marginal frequencies, 388
299, 453, 598	surface area, 598, 604, 612	misleading displays, 396
Constructions	transformations	Decimal(s)
angles	congruent figures, 47	repeating, 316–317
adjacent, 502–507	dilations, 89	Dependent events, See also Events,
vertical, 502–507	reflections, 59	Probability
quadrilaterals, 524–529	rotations, 67	defined, 663
triangles, 514–521	similar figures, 74, 75	formula, 663
Convex polygon, defined, 119	triangles, 519	writing, 665
Coordinate plane(s)	volume, 612, 613	Diameter, defined, 550
transformations in the	of cones, 345	Different Words, Same Question,
dilations, 82–89	of cylinders, 339	Throughout. For example,
reflections, 55–59	Cross section(s)	see:
rotations, 61–67	defined, 620	angles of polygons, 123
translations, 49–53	of three-dimensional figures,	area of a circle, 568
Corresponding angles	620–621	constructing triangles, 518
defined, 44	Cube(s), surface area of, 590	exponents, 432
naming, 44	Cube root(s)	functions, 253
symbol, 44	defined, 296	inequalities, 468
Corresponding sides	finding, 294–299	probability, 665
defined, 44	real-life application, 297	rotations, 65
naming, 44	perfect cube, 296	solving equations, 30
symbol, 44	Cylinder(s)	surface area of a prism, 591
Critical Thinking, Throughout.	cross section of, 620–621	triangles, 304
For example, see:	surface area of, 600–605	volume of cylinders, 338
angle measures, 109 circles, area of, 569	formula, 602	Dilation(s) , 82–89
composite figures	real-life application, 603	center of, 84
area of, 575	volume of, 334–339	in the coordinate plane, 82–89
perimeter of, 561	formula, 336	defined, 84
cube roots, 299	modeling, 339	scale factor, 84
cylinders, 604	real-life application, 337	Direct variation, See also
equations		Proportional relationships
multi-step, 15		Distance formula, 319–323
simple, 9		defined, 320
exponents, 415	Data, See also Equations; Graphs	real-life application, 321
Product of Powers Property,	analyzing	Distributive Property
420, 421	line of best fit, 381	equations with variables on both
Quotient of Powers Property,	writing, 382	sides, 20
427	displaying	multi-step equations, 13
zero, 432	bar graph, 394	Division
inequalities, 469	box-and-whisker plot, 394	Property
linear equations, 170	choosing a display, 392–399	of Equality, 5
in slope-intercept form, 171,	circle graph, 394	of Inequality, 480–481
183	dot plot, 394	to solve inequalities, 478–485
solving systems of, 207, 223	histogram, 394	Division Property of Inequality,
in standard form, 177	line graph, 394	480–481
writing, 183	pictograph, 394	Dot plots, 394

E	linear equations	dependent, 660–667
E	graphing, 146	defined, 663
T. 11.	in slope-intercept form, 170,	writing, 665
Equality	182	independent, 660–667
Addition Property of, 4	solving systems of, 207, 213,	defined, 662
Division Property of, 5	221, 222, 228	writing, 665
Multiplication Property of, 5	in standard form, 176	outcomes of, 634
Subtraction Property of, 4	naming angles, 506	probability of, 638–643
Equation(s), See also	outcomes, 636	defined, 640
Linear equations	parallel lines, 107	*
function rules, 250	perimeter of a composite figure,	Example and non-example chart,
literal, 28	1 0	116, 522
multi-step, 10–15	560	Experiment(s)
real-life application, 13	powers	defined, 634
rewriting, 26–31	Product of Powers Property,	outcomes of, 632–637
real-life application, 29	420	project, 685
simple, 2–9	Quotient of Powers Property,	reading, 634
modeling, 8	426	simulations, 668–669
real-life application, 6	prisms	defined, 668
solving	surface area, 592	Experimental probability, 644–651
8	volume of, 612	defined, 646
by addition, 4	probability, 642	formula, 646
by division, 5	dependent events, 666	
by multiplication, 5	Fundamental Counting	Exponent(s)
multi-step, 10–15	Principle, 658	defined, 412
by rewriting, 26–31	outcomes, 636	evaluating expressions, 410–415
simple, 2–9	Pythagorean Theorem, 304, 322	real-life application, 413
by subtraction, 4	real numbers, 313	negative, 428–433
two-step, 12	relations, 246	defined, 430
with variables on both sides,	scale drawings, 535	real-life application, 431
18–25		writing, 432
with variables on both sides,	scientific notation	powers and, 410–421
18–25	operations in, 452	real-life application, 425
real-life application, 22	writing numbers in, 446	writing, 426
writing, 23	writing in standard form, 440	properties of
Error Analysis, <i>Throughout</i> .	slope, 154	Power of a Power Property,
For example, see:	square roots, 313	418
angles	finding, 292	Power of a Product Property,
corresponding, 107	surface area	1
exterior, 115	of a cylinder, 604	418
of polygons, 123, 124	of a prism, 592	Product of Powers Property,
classifying triangles, 518	systems of linear equations	416–421
congruent figures, 47	solving by elimination, 221,	Quotient of Powers Property,
corresponding sides, 47	222	422–427
distance formula, 322	solving by graphing, 207	quotients and, 422–427
equations	solving special, 228	scientific notation
multi-step, 14	solving by substitution, 213	defined, 438
rewriting, 30	transformations	operations in, 448–453
•	dilations, 88	project, 453
simple, 8	triangles, 518	reading numbers in, 436–441
with variables on both sides,	exterior angles of, 115	real-life applications, 439,
23, 24	_	445, 451
exponents	Pythagorean Theorem, 304	writing numbers in, 442–447
evaluating expressions, 414	volume	zero, 428–433
negative, 432	of a cone, 344	
functions	of a prism, 612	defined, 430
graphing, 254	of similar solids, 360	Expressions
relations and, 246	Event(s), See also Probability	evaluating exponential, 410–415
inequalities	compound, 652–659	real-life application, 413
solving, 474, 483, 484, 490	defined, 656	Exterior angle(s)
writing, 468	defined, 634	alternate, 106

angle sum of, 122	function rules	composite figures
real-life application, 121	defined, 250	area of, 570–575
defined, 105, 112	real-life application, 252	perimeter of, 556–561
of triangles, 110–115	writing, 250–255	constructions and drawings,
Exterior angles of a polygon,	linear, 256–263	502–521, 524–537
defined, 112	compared to nonlinear,	line of reflection, 56
	266–271	parallel lines, 102–109
	defined, 258	perimeter of similar figures,
	modeling, 271	76–81
Favorable outcome(s), defined, 634	real-life applications, 259, 269	pi, 548
Formula(s)	writing, 261	polygons
angles	nonlinear	angles of, 118–125
sum for a quadrilateral, 527	compared to linear, 266–271	concave, 119
sum for a triangle, 520	defined, 268	convex, 119
area	real-life application, 269	Pythagorean Theorem, 300–305
of a circle, 566	relations and, 242–247	converse of, 320
of a parallelogram, 573	inputs, 244	defined, 302
of a rectangle, 573	mapping diagrams, 242–247	using, 318–323
of a semicircle, 573	outputs, 244	
of similar figures, 78	research, 247	quadrilaterals, 526
of a triangle, 573	representing	constructing, 524–529
circumference, 551	with graphs, 248–255	defined, 524
distance, 320	with input-output tables,	kite, 526
perimeter of similar figures, 78	248–255	parallelogram, 526, 573
pi, 548	with mapping diagrams,	rectangle, 526, 573
probability	245–247, 252	rhombus, 526
dependent events, 663	real-life application, 252	square, 526
of an event, 640	writing, 253	trapezoid, 526
experimental, 646	Function rule(s)	sides, corresponding, 44
independent events, 662	defined, 250	solids
relative frequency, 644	real-life application, 252	cones, 340–345
theoretical, 647	writing, 250–255	cylinders, 334–339
Pythagorean Theorem, 302		similar, 354–361
rewriting, 26–31	Fundamental Counting Principle defined, 654	spheres, 348–353
slope, 148, 150		surface area of, 354–361
surface area	writing, 657	volume of, 334–345, 348–361,
of a cube, 590	G	354–361
of a cylinder, 602		surface area
of a prism, 589	Geometry	of a cylinder, 600–605
of a pyramid, 596	angles, 102–115, 118–131	of a prism, 586–593
of a rectangular prism, 588	adjacent, 502–507	of a pyramid, 594–599
of similar solids, 357	complementary, 508–513	of a rectangular prism, 588
	congruent, 504	tessellation, 48–49
temperature conversion, 29	constructing, 502–513	transformations
volume		congruent figures, 42–47
of a cone, 342	corresponding, 44	dilations, 82–89
of a cube, 610	exterior, 105, 112	
of a cylinder, 336	interior, 105, 112	reflections, 54–59 rotations, 60–67
of a hemisphere, 351	of polygons, 118–125	,
of a prism, 610	of rotation, 62	similar figures, 70–81
of a pyramid, 616	supplementary, 508–513	translations, 48–53
of similar solids, 358	vertical, 502–507	transversals, 102–109
of a sphere, 350	area of similar figures, 76–81	trapezoids, 526
Formula triangle, 346	circles	triangles
Four square, 306	area of, 564–569	angles of, 110–115
Fraction(s)	center of, 550	area of, 573
repeating decimals written as,	circumference, 548–555	classifying, 516
316–317	diameter, 550	congruent, 42–44
Function(s)	radius, 550	congruent sides, 516
defined, 245	semicircles, 552	constructing, 514–519

hypotenuse, 302	ПП	Input(s), defined, 244
legs, 302		Input-output tables
right, 302		using to represent functions,
similar, 126–131	Hemisphere(s)	248–255
volume of a prism, 608–613	defined, 351	Interior angle(s)
Graph of an inequality, defined,	volume formula, 351	alternate, 106
467	Histograms, 394	defined, 105, 112
Graphic Organizers	Hypotenuse, defined, 302	of triangles, 110–115
comparison chart, 264		
example and non-example		real-life application, 113
chart, 116, 522		Interior angles of a polygon,
	Image(s)	defined, 112
formula triangle, 346	defined, 50	Irrational number(s), defined, 310
four square, 306	reading, 50	J
information frame, 384, 606	Independent events, See also	ر ق
information wheel, 434	Events, Probability	Laint fragment de Grand 200
notetaking organizer, 214, 670	defined, 662	Joint frequency, defined, 388
process diagram, 164	formula, 662	K
summary triangle, 68	writing, 665	
word magnet, 562	Indirect measurement, 127–129	Vita defined FOC
Y chart, 16, 476	defined, 129	Kite, defined, 526
Graphing	•	
inequalities, 464–469	modeling, 127	
defined, 467	project, 127	Lateral surface area, defined, 590
Graphs	Inequality	
analyzing, 272–277	Addition Property of, 472	Leg(s), defined, 302
bar graphs, 394	defined, 466	Like terms, combining to solve
box-and-whisker plots, 394	Division Property of, 480–481	equations, 12
circle graphs, 394	graphing, 464–469	Line(s)
dot plots, 394	defined, 467	graphing
of functions, 248–255	Multiplication Property of,	horizontal, 144
histograms, 394	480–481	vertical, 144
line graphs, 394	solution of	parallel, 102–109
linear, 142–147	defined, 466	defined, 104
defined, 144	reading, 473	project, 108
of horizontal lines, 144	solution set of	slope of, 156
real-life application, 145	defined, 466	symbol, 104
in slope-intercept form,	solving two-step, 486–491	perpendicular
166–171	real-life application, 489	defined, 104
solution of, 144	writing, 490	slope of, 157
in standard form, 172–177	solving using addition, 470–475	symbol, 104
of vertical lines, 144	real-life application, 473	of reflection, 56
misleading, 396	writing, 470	slope of, 148–157
pictographs, 394	solving using division, 478–485	transversals, 102–109
proportional relationships,	project, 485	<i>x</i> -intercept of, 168
158–163	writing, 479	y-intercept of, 168
	solving using multiplication,	Line of best fit, defined, 381
scatter plots, 372–377, 394	478–485	Line of fit, 378–383
sketching, 272–277	project, 485	defined, 380
slope, 148–157	writing, 479, 483	line of best fit, 381
defined, 148, 150	_	
formula, 148, 150	solving using subtraction,	modeling, 378, 379, 383
reading, 150	470–475	writing, 382
stem-and-leaf plots, 394	writing, 470	Line graphs, 394
used to solve linear equations,	Subtraction Property of, 472	Line of reflection, defined, 56
230–231	symbols, 466	Linear equation(s), See also
real-life application, 231	reading, 473	Equations, Proportional
used to solve systems of linear	writing, 464–469	relationships
equations, 202–207	modeling, 469	defined, 144
modeling, 207	Information frame, 384, 606	graphing, 142–147
real-life application, 205	Information wheel, 434	horizontal lines, 144

real-life applications, 145,	circumference, 555	Property
175, 231	constructing a triangle, 519	of Equality, 5
in slope-intercept form,	cube roots, 299	of Inequality, 480–481
166–171	equations	Multiplication Property of
to solve, 230–231	rewriting, 31	Inequality, 480–481
in standard form, 172–177	simple, 9	CDR.
vertical lines, 144	inequalities	
lines of fit, 378–383	solving, 485	
modeling, 378, 379, 383	writing, 469	Nonlinear function(s)
point-slope form	linear equations	compared to linear, 266–271
defined, 186	graphing, 142, 177	real-life application, 269
real-life application, 187	in slope-intercept form, 167	defined, 268
writing, 188	solving systems of, 217, 223,	Notetaking organizer, 214, 670
writing in, 184–189	229	Number(s)
slope of a line, 148–157	prisms, 613	irrational, 310–315
defined, 148, 150	probability	defined, 310
formula, 148, 150	dependent events, 666	rational, 310
reading, 150	experimental, 649	real, 310–315
slope-intercept form	independent events, 666	classifying, 310
defined, 168	theoretical, 649	defined, 310
real-life applications, 169, 181		Number Sense, <i>Throughout</i> .
	samples, 677	For example, see:
writing in, 178–183	scatter plots, 376	analyzing data, 382
x-intercept, 168	systems of linear equations, 217,	angles
y-intercept, 168	223, 229	exterior, 114
solution of, 144	transformations	of a polygon, 123
standard form, 172–177	similar figures, 75	cube roots, 299
defined, 174	[V]	exponents, 414, 427, 432
modeling, 177	M	functions, 271
1 110 11		
real-life application, 175	Manning diagram (s) 242 247	
writing, 176	Mapping diagram(s), 242–247	inequalities, 475, 485
writing, 176 systems of	defined, 244	inequalities, 475, 485 probability, 650
writing, 176 systems of defined, 202, 204	defined, 244 Marginal frequency, defined, 388	inequalities, 475, 485 probability, 650 real numbers, 315
writing, 176 systems of defined, 202, 204 modeling, 207	defined, 244 Marginal frequency, defined, 388 Meaning of a Word	inequalities, 475, 485 probability, 650 real numbers, 315 scientific notation, 441, 452
writing, 176 systems of defined, 202, 204 modeling, 207 reading, 204	defined, 244 Marginal frequency, defined, 388 Meaning of a Word adjacent, 502	inequalities, 475, 485 probability, 650 real numbers, 315 scientific notation, 441, 452 similar solids
writing, 176 systems of defined, 202, 204 modeling, 207 reading, 204 real-life applications, 205,	defined, 244 Marginal frequency, defined, 388 Meaning of a Word adjacent, 502 dilate, 82	inequalities, 475, 485 probability, 650 real numbers, 315 scientific notation, 441, 452 similar solids surface area of, 359
writing, 176 systems of defined, 202, 204 modeling, 207 reading, 204 real-life applications, 205, 211, 220	defined, 244 Marginal frequency, defined, 388 Meaning of a Word adjacent, 502 dilate, 82 reflection, 54	inequalities, 475, 485 probability, 650 real numbers, 315 scientific notation, 441, 452 similar solids surface area of, 359 volume of, 359
writing, 176 systems of defined, 202, 204 modeling, 207 reading, 204 real-life applications, 205, 211, 220 solution of a, 204	defined, 244 Marginal frequency, defined, 388 Meaning of a Word adjacent, 502 dilate, 82 reflection, 54 rotate, 60	inequalities, 475, 485 probability, 650 real numbers, 315 scientific notation, 441, 452 similar solids surface area of, 359 volume of, 359 square roots, 292
writing, 176 systems of defined, 202, 204 modeling, 207 reading, 204 real-life applications, 205, 211, 220	defined, 244 Marginal frequency, defined, 388 Meaning of a Word adjacent, 502 dilate, 82 reflection, 54 rotate, 60 translate, 48	inequalities, 475, 485 probability, 650 real numbers, 315 scientific notation, 441, 452 similar solids surface area of, 359 volume of, 359 square roots, 292 statistics, 685
writing, 176 systems of defined, 202, 204 modeling, 207 reading, 204 real-life applications, 205, 211, 220 solution of a, 204 solving by elimination, 216–223	defined, 244 Marginal frequency, defined, 388 Meaning of a Word adjacent, 502 dilate, 82 reflection, 54 rotate, 60 translate, 48 transverse, 102	inequalities, 475, 485 probability, 650 real numbers, 315 scientific notation, 441, 452 similar solids surface area of, 359 volume of, 359 square roots, 292 statistics, 685 surface area of a prism, 593
writing, 176 systems of defined, 202, 204 modeling, 207 reading, 204 real-life applications, 205, 211, 220 solution of a, 204 solving by elimination,	defined, 244 Marginal frequency, defined, 388 Meaning of a Word adjacent, 502 dilate, 82 reflection, 54 rotate, 60 translate, 48 transverse, 102 Mental Math, <i>Throughout</i> .	inequalities, 475, 485 probability, 650 real numbers, 315 scientific notation, 441, 452 similar solids surface area of, 359 volume of, 359 square roots, 292 statistics, 685 surface area of a prism, 593 systems of linear equations
writing, 176 systems of defined, 202, 204 modeling, 207 reading, 204 real-life applications, 205, 211, 220 solution of a, 204 solving by elimination, 216–223 solving by graphing, 202–207 solving special, 224–229	defined, 244 Marginal frequency, defined, 388 Meaning of a Word adjacent, 502 dilate, 82 reflection, 54 rotate, 60 translate, 48 transverse, 102 Mental Math, Throughout. For example, see:	inequalities, 475, 485 probability, 650 real numbers, 315 scientific notation, 441, 452 similar solids surface area of, 359 volume of, 359 square roots, 292 statistics, 685 surface area of a prism, 593 systems of linear equations solving by elimination, 221
writing, 176 systems of defined, 202, 204 modeling, 207 reading, 204 real-life applications, 205, 211, 220 solution of a, 204 solving by elimination, 216–223 solving by graphing, 202–207	defined, 244 Marginal frequency, defined, 388 Meaning of a Word adjacent, 502 dilate, 82 reflection, 54 rotate, 60 translate, 48 transverse, 102 Mental Math, Throughout. For example, see: rotations, 65	inequalities, 475, 485 probability, 650 real numbers, 315 scientific notation, 441, 452 similar solids surface area of, 359 volume of, 359 square roots, 292 statistics, 685 surface area of a prism, 593 systems of linear equations solving by elimination, 221 solving by substitution, 212,
writing, 176 systems of defined, 202, 204 modeling, 207 reading, 204 real-life applications, 205, 211, 220 solution of a, 204 solving by elimination, 216–223 solving by graphing, 202–207 solving special, 224–229	defined, 244 Marginal frequency, defined, 388 Meaning of a Word adjacent, 502 dilate, 82 reflection, 54 rotate, 60 translate, 48 transverse, 102 Mental Math, Throughout. For example, see:	inequalities, 475, 485 probability, 650 real numbers, 315 scientific notation, 441, 452 similar solids surface area of, 359 volume of, 359 square roots, 292 statistics, 685 surface area of a prism, 593 systems of linear equations solving by elimination, 221 solving by substitution, 212, 213
writing, 176 systems of defined, 202, 204 modeling, 207 reading, 204 real-life applications, 205, 211, 220 solution of a, 204 solving by elimination, 216–223 solving by graphing, 202–207 solving special, 224–229 solving by substitution,	defined, 244 Marginal frequency, defined, 388 Meaning of a Word adjacent, 502 dilate, 82 reflection, 54 rotate, 60 translate, 48 transverse, 102 Mental Math, Throughout. For example, see: rotations, 65	inequalities, 475, 485 probability, 650 real numbers, 315 scientific notation, 441, 452 similar solids surface area of, 359 volume of, 359 square roots, 292 statistics, 685 surface area of a prism, 593 systems of linear equations solving by elimination, 221 solving by substitution, 212, 213 transformations
writing, 176 systems of defined, 202, 204 modeling, 207 reading, 204 real-life applications, 205, 211, 220 solution of a, 204 solving by elimination, 216–223 solving by graphing, 202–207 solving special, 224–229 solving by substitution, 208–213	defined, 244 Marginal frequency, defined, 388 Meaning of a Word adjacent, 502 dilate, 82 reflection, 54 rotate, 60 translate, 48 transverse, 102 Mental Math, Throughout. For example, see: rotations, 65 Modeling, Throughout.	inequalities, 475, 485 probability, 650 real numbers, 315 scientific notation, 441, 452 similar solids surface area of, 359 volume of, 359 square roots, 292 statistics, 685 surface area of a prism, 593 systems of linear equations solving by elimination, 221 solving by substitution, 212, 213 transformations reflections, 59
writing, 176 systems of defined, 202, 204 modeling, 207 reading, 204 real-life applications, 205, 211, 220 solution of a, 204 solving by elimination, 216–223 solving by graphing, 202–207 solving special, 224–229 solving by substitution, 208–213 writing, 206, 212, 221, 228	defined, 244 Marginal frequency, defined, 388 Meaning of a Word adjacent, 502 dilate, 82 reflection, 54 rotate, 60 translate, 48 transverse, 102 Mental Math, Throughout. For example, see: rotations, 65 Modeling, Throughout. For example, see:	inequalities, 475, 485 probability, 650 real numbers, 315 scientific notation, 441, 452 similar solids surface area of, 359 volume of, 359 square roots, 292 statistics, 685 surface area of a prism, 593 systems of linear equations solving by elimination, 221 solving by substitution, 212, 213 transformations
writing, 176 systems of defined, 202, 204 modeling, 207 reading, 204 real-life applications, 205, 211, 220 solution of a, 204 solving by elimination, 216–223 solving by graphing, 202–207 solving special, 224–229 solving by substitution, 208–213 writing, 206, 212, 221, 228 Linear function(s), 256–263	defined, 244 Marginal frequency, defined, 388 Meaning of a Word adjacent, 502 dilate, 82 reflection, 54 rotate, 60 translate, 48 transverse, 102 Mental Math, Throughout. For example, see: rotations, 65 Modeling, Throughout. For example, see: equations, 8	inequalities, 475, 485 probability, 650 real numbers, 315 scientific notation, 441, 452 similar solids surface area of, 359 volume of, 359 square roots, 292 statistics, 685 surface area of a prism, 593 systems of linear equations solving by elimination, 221 solving by substitution, 212, 213 transformations reflections, 59 similar figures, 80
writing, 176 systems of defined, 202, 204 modeling, 207 reading, 204 real-life applications, 205, 211, 220 solution of a, 204 solving by elimination, 216–223 solving by graphing, 202–207 solving special, 224–229 solving by substitution, 208–213 writing, 206, 212, 221, 228 Linear function(s), 256–263 compared to nonlinear, 266–271	defined, 244 Marginal frequency, defined, 388 Meaning of a Word adjacent, 502 dilate, 82 reflection, 54 rotate, 60 translate, 48 transverse, 102 Mental Math, Throughout. For example, see: rotations, 65 Modeling, Throughout. For example, see: equations, 8 indirect measurement, 127	inequalities, 475, 485 probability, 650 real numbers, 315 scientific notation, 441, 452 similar solids surface area of, 359 volume of, 359 square roots, 292 statistics, 685 surface area of a prism, 593 systems of linear equations solving by elimination, 221 solving by substitution, 212, 213 transformations reflections, 59
writing, 176 systems of defined, 202, 204 modeling, 207 reading, 204 real-life applications, 205, 211, 220 solution of a, 204 solving by elimination, 216–223 solving by graphing, 202–207 solving special, 224–229 solving by substitution, 208–213 writing, 206, 212, 221, 228 Linear function(s), 256–263 compared to nonlinear, 266–271 real-life application, 269 defined, 258	defined, 244 Marginal frequency, defined, 388 Meaning of a Word adjacent, 502 dilate, 82 reflection, 54 rotate, 60 translate, 48 transverse, 102 Mental Math, Throughout. For example, see: rotations, 65 Modeling, Throughout. For example, see: equations, 8 indirect measurement, 127 inequalities, 469	inequalities, 475, 485 probability, 650 real numbers, 315 scientific notation, 441, 452 similar solids surface area of, 359 volume of, 359 square roots, 292 statistics, 685 surface area of a prism, 593 systems of linear equations solving by elimination, 221 solving by substitution, 212, 213 transformations reflections, 59 similar figures, 80
writing, 176 systems of defined, 202, 204 modeling, 207 reading, 204 real-life applications, 205, 211, 220 solution of a, 204 solving by elimination, 216–223 solving by graphing, 202–207 solving special, 224–229 solving by substitution, 208–213 writing, 206, 212, 221, 228 Linear function(s), 256–263 compared to nonlinear, 266–271 real-life application, 269 defined, 258 modeling, 271	defined, 244 Marginal frequency, defined, 388 Meaning of a Word adjacent, 502 dilate, 82 reflection, 54 rotate, 60 translate, 48 transverse, 102 Mental Math, Throughout. For example, see: rotations, 65 Modeling, Throughout. For example, see: equations, 8 indirect measurement, 127 inequalities, 469 linear equations	inequalities, 475, 485 probability, 650 real numbers, 315 scientific notation, 441, 452 similar solids surface area of, 359 volume of, 359 square roots, 292 statistics, 685 surface area of a prism, 593 systems of linear equations solving by elimination, 221 solving by substitution, 212, 213 transformations reflections, 59 similar figures, 80 Open-Ended, Throughout.
writing, 176 systems of defined, 202, 204 modeling, 207 reading, 204 real-life applications, 205, 211, 220 solution of a, 204 solving by elimination, 216–223 solving by graphing, 202–207 solving special, 224–229 solving by substitution, 208–213 writing, 206, 212, 221, 228 Linear function(s), 256–263 compared to nonlinear, 266–271 real-life application, 269 defined, 258 modeling, 271 real-life application, 259	defined, 244 Marginal frequency, defined, 388 Meaning of a Word adjacent, 502 dilate, 82 reflection, 54 rotate, 60 translate, 48 transverse, 102 Mental Math, Throughout. For example, see: rotations, 65 Modeling, Throughout. For example, see: equations, 8 indirect measurement, 127 inequalities, 469 linear equations lines of fit, 378, 379, 383	inequalities, 475, 485 probability, 650 real numbers, 315 scientific notation, 441, 452 similar solids surface area of, 359 volume of, 359 square roots, 292 statistics, 685 surface area of a prism, 593 systems of linear equations solving by elimination, 221 solving by substitution, 212, 213 transformations reflections, 59 similar figures, 80 Open-Ended, Throughout. For example, see:
writing, 176 systems of defined, 202, 204 modeling, 207 reading, 204 real-life applications, 205, 211, 220 solution of a, 204 solving by elimination, 216–223 solving by graphing, 202–207 solving special, 224–229 solving by substitution, 208–213 writing, 206, 212, 221, 228 Linear function(s), 256–263 compared to nonlinear, 266–271 real-life application, 269 defined, 258 modeling, 271 real-life application, 259 writing, 261	defined, 244 Marginal frequency, defined, 388 Meaning of a Word adjacent, 502 dilate, 82 reflection, 54 rotate, 60 translate, 48 transverse, 102 Mental Math, Throughout. For example, see: rotations, 65 Modeling, Throughout. For example, see: equations, 8 indirect measurement, 127 inequalities, 469 linear equations lines of fit, 378, 379, 383 solving systems of, 207	inequalities, 475, 485 probability, 650 real numbers, 315 scientific notation, 441, 452 similar solids surface area of, 359 volume of, 359 square roots, 292 statistics, 685 surface area of a prism, 593 systems of linear equations solving by elimination, 221 solving by substitution, 212, 213 transformations reflections, 59 similar figures, 80 Open-Ended, Throughout. For example, see: angles, 507, 513
writing, 176 systems of defined, 202, 204 modeling, 207 reading, 204 real-life applications, 205, 211, 220 solution of a, 204 solving by elimination, 216–223 solving by graphing, 202–207 solving special, 224–229 solving by substitution, 208–213 writing, 206, 212, 221, 228 Linear function(s), 256–263 compared to nonlinear, 266–271 real-life application, 269 defined, 258 modeling, 271 real-life application, 259 writing, 261 Linear measures, 357	defined, 244 Marginal frequency, defined, 388 Meaning of a Word adjacent, 502 dilate, 82 reflection, 54 rotate, 60 translate, 48 transverse, 102 Mental Math, Throughout.
